

Respiratory Virus Guidance Snapshot

Core prevention strategies

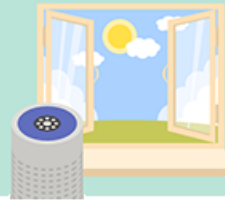

Immunizations

Hygiene

Steps for Cleaner Air

Treatment

Stay Home and Prevent Spread*

Additional prevention strategies

Masks

Distancing

Tests

Layering prevention strategies can be especially helpful when:

- ✓ Respiratory viruses are causing a lot of illness in your community
- ✓ You or those around you have risk factors for severe illness
- ✓ You or those around you were recently exposed, are sick, or are recovering

***Stay home and away from others until, for 24 hours BOTH:**

Your symptoms are getting better

You are fever-free (without meds)

Then take added precaution for the next **5 days**
