

**CALL TO ORDER/ROLL CALL**

J. Murphy called the meeting to order at 2:32 p.m.

**Members present:** (voting) J. Murphy, S. Campos, P. Harmon, K. Li, J. Davidson, C. Nicholson, G. Jablonski, A. Miller, M. Flaherty, W. Griffin, R. Jaimes, J. Cody, L. Wester and W. Justiz

**Members absent:** (voting) M. Enich and R. Connor

**Resource Members present:** S. Misasi Maratto  
(non-voting)

**Resource Members absent:** ----  
(non-voting)

**Agendee(s):** K. Li and K. Li (for L. Manno and V. McCullum), J. LoBianco/D. Loranz, P. Jaswilko, A. Miller, C. Rockafellow, J. Murphy and J. Murphy (for K. Deresinski), M. Flaherty, T. Maloy, L. Maas, M. T. Dyer, P. Harmon (for N. Rizo and T. Junge)

**Visitor(s):** D. Manni, M. Henson and D. Salinas-Lazarski

**APPROVAL OF COLLEGE CURRICULUM MINUTES**

*Motion to approve the minutes of May 2, 2019 passed unanimously, by voice vote.*

**OLD BUSINESS**

Item No.	Course/Curr No.	Proposals	Readings			Action Taken
			1	2	3	
None						

**NEW BUSINESS**

Item No.	Course/Curr No.	Proposals	Readings			Action Taken
			1	2	3	
19-67	CHM 100 Chemistry and Society	rev crs	X			approved
19-68	CHM 234 Organic Chemistry I	rev crs	X			approved
19-69	CHM 235 Organic Chemistry II	rev crs	X			approved

*Motion to approve item numbers 19-67 through 19-69, passed unanimously by voice vote.*

**Embracing the**

19-70	COL 102 College Experience	rev crs	X			approved
-------	----------------------------	---------	---	--	--	----------

*Motion to approve item number 19-70, passed unanimously by voice vote.*

19-71	C448U VIC/Digital Media Cert	inactive curr	X			approved
19-72	C448W VIC/Layout & Design Cert	inactive curr	X			approved

J. LoBianco-Bartalis stated that the above programs were inactivated to streamline the offerings in

Visual Communications (VIC). Some courses never ran. Students are/will be moved into other similar VIC programs.

*Motion to approve item numbers 19-71 and 19-72, passed unanimously by voice vote.*

<b>19-73</b>	<b>AHL 100</b>	<b>Intro to Patient Care</b>	<b>rev crs</b>	<b>X</b>	<b>approved</b>

**OTHER:**

**A.) GECC Credential – J. Murphy**

J. Murphy stated that discussion occurred regarding the GECC Credential last Spring (2019). S. Misasi Maratto verified with the State that this Credential will count toward the completion rate. There are thirteen community colleges, including Triton College, that did not seek approval and thirty three community colleges received approval and are currently offering this Credential, with two college in the approval process. L. Wester questioned if any four-year universities are offering this Credential. K. Li replied no, only community colleges are offering this Credential. J. Murphy stated that we need to decide if we plan to seek approval, as she did not

receive any feedback since the discussion last Spring. A. Miller questioned if the four-year schools would accept this credential. L. Wester replied that the courses included in the Credential are all I.A.I. approved courses, and they would be accepted. M. Flaherty thought that we were going to wait and see what other colleges were doing and we will likely do this because our completion rates will increase. Students may transfer prior to obtaining the Credential, as many do now, but it would not be good if we are the only school that does not offer this Credential. K. Li added this is a Statewide recognized Credential and students would go elsewhere, plus we are looking to increase our completion rate, and added that he is in support of pursuing this Credential. He raised a concern regarding communication and conversations with the chairpersons, Counselors, Admissions, etc. Would the Credential be stackable between the AS and AA Degree and if the students would be able to walk for graduation, are just a couple of questions that need to be addressed. M. Flaherty stated that the students should not be able to walk for graduation. W. Justiz disagree that the students who graduate with a certificate are allowed to walk for graduation. S. Campos mentioned that hearing what other CAOs stance is that students who complete this Credential were not eligible to walk. L. Wester stated that reverse transfer students who complete their last six credits here and they are eligible to walk. Counseling and Advisors would need to be aware that this is a Credential received by completing the GECC Credential and it is not a certificate. The majority of students are required to take other courses prior to transfer, it will basically increase our completion rate. J. Cody stated that by adding the GECC Credential will make a significant difference in our completion rates. K. Li stated that the maintenance of courses are all I.A.I. approved so there would be no additional work. L. Wester stated that work would increase in the Records Office. J. Cody stated that there would be a benefit for the college, but not sure if there is one for the students. M. Flaherty added that students who complete the GECC Credential may transfer out faster. S. Campos stated that this may spur the students on to completion. K. Li added that there is enough evidence of students not completing a long-term goal and may with a short-term goal. R. Segovia stated that pushing gen-ed GECC courses, students would complete. J. Murphy asked if the GECC Credential would be modeled off of the AA or AS Degree and K. Li replied that would be modeled off of both degrees. The ICCB states that the GECC Credential should be modeled off of the AA Degree, but he would like to inquire if we can also model off of the AS Degree and offer two paths. S. Campos added that this would fit into the Guided Pathways as well. J. Murphy stated that most times all gen-eds are completed except Math. S. Campos added that marketing would play a big role. K. Li asked if the Curriculum Committee agrees, we can begin the process. L. Wester questioned if it is up to this Committee to give approval. J. Murphy replied there is no need to make a motion for approval, as the Curriculum Committee does not approve, but makes a recommendation to pursue this Credential, which would be a positive move for the students. M. Flaherty and J. Murphy stated they are in support of developing and seeking approval for the GECC Credential. J. Murphy offered her assistance if needed.

*The consensus of the College Curriculum Committee was unanimous to move forward with the development and seek approval for the GECC Credential.*

**B) 'Internal Gen-Ed Distribution Rule' for the AAS Degree – K. Li**

J. Murphy stated that some gen-ed requirements in the AAS Degree are specific to disciplines that do not work for the Renewable Energy program, as the total credits are 64, which is beyond the 60 credits required for the AAS Degree. K. Li asked if there can be an exception for the Renewable Energy program. A rationale is required by the ICCB if the total credits for a program are above 60 credits and he would like to decrease the number in the disciplines that are prescribed. The ICCB only requires there to be fifteen gen-eds for the AAS Degree and are not prescriptive as to what the students should take or the do not have to be IAI courses. J. Cody asked if organizations offer fifteen scholarships up to 60 credit hours for students, along with pursuing State and Federal Grants. There would be 20 students in the first cohort. J. Cody asked if there is a plan beyond the certificate. K. Li stated that we would promote. M. Flaherty asked what they would want changed in the gen-eds. K. Li replied to reduce the total credits to 60 by revising the prescribed gen-eds. L. Wester stated that even if the gen-eds were revised, we still intend to give the students a well-rounded education, but if courses are removed, then other areas would also want exceptions made. We would like to keep the disciplines for the gen-eds. K. Li agreed with wanting the students to be well-rounded. L. Wester added that we do not require Diversity as other schools. W. Justiz asked if this request is from an accrediting body or a request from an employer. L. Wester added that we denied changing the gen-ed listing for Automotive/Honda that had a similar request. J. Murphy stated that we don't want to miss this opportunity and suggested removing MAT 114 from the program prerequisite that would lower the total credits. C. Nicholson stated that Trigonometry is the prerequisite for Physics and is not an IAI course, and maybe we should look to replace that with another MAT prerequisite. G. Jablonski stated then that would go down another path. J. Murphy added that the University of Illinois accepts MAT 101 as a gen ed. K. Li reiterated that the intention is to produce well-rounded students who are ready to work and questioned if we provide a strong rationale from the industry, would an exception be considered. J. Murphy noted that the students' best interest is top priority and would not want them to miss out on this opportunity to offer the Renewable Energy Degree. M. Flaherty suggested removing the Humanities requirement. L. Wester added that the economics course is never offered. K. Li stated that when Renewable Energy Degree was developed, the requirement was for fifteen gen ed and economics was included. S. Campos suggested replacing the economics course with another course. J. Murphy added that a strong rationale is needed from an outside agency or accrediting body to make an exception. J. Cody added that an exceptions can be controlled. S. Campos noted that K. Li is requesting for the gen-ed distribution to be changed. W. Justiz questioned what are other schools doing. K. Li stated that the Renewable Energy Degree is driven by the Energy Bill that was passed in 2017. He would work with the faculty and J. Davidson to provide a strong rationale. S. Campos asked C. Nicholson which Physics course is required. K. Li stated that most I.A.I. courses do not require prerequisites. L. Wester suggested if students take PHY 100 instead of PHY 101, which is 4 not 5 credits and has no prerequisite, which would reduce the total credits by 4 hours. J. Murphy stated that J. Davidson, K. Li, C. Nicholson and L. Wester will discuss further.

**C) Meta-Majors – K. Li**

K. Li recapped last semester when he distributed a Meta-Majors draft and

requested feedback from the CCC. He is currently working with a small committee. S. Campos asked where this would lead. K. Li replied the Guided Pathway using Programs of Study delivered in different buckets. S. Campos asked if the Guided Pathway or Programs of Study are Meta-Majors. K. Li replied there would be 8 to 10 Meta Majors. J. Murphy stated that there was some talk about removing the emphasis from the A.A. and A.S. degrees. S. Campos noted that is for a different discussion. K. Li asked for volunteers with J. Davidson, P. Harmon, S. Campos, and W. Justiz volunteering. S. Campos read a list of programs in the city colleges where students can choose their program and change if they wish.

L. Wester asked the Committee to applaud S. Misasi Maratto and J. Murphy for all their hard work preparing for this meeting.

**D) College Curriculum Committee Membership – J. Murphy**

J. Murphy stated there have been many changes with the College Curriculum Committee (CCC) membership and in the Technical Review Committee (TRC). She read off the members and their new titles and roles. L. Wester added there is also a new title of Dean of Retention and Student Engagement. J. Murphy requested that persons in the TRC to please review what they can, as there are 13 members, but only 6 are active. We need to clean house if members are not participating. She made a recommendation to add an IT and Advising Resource person. S. Campos stated there are not many people available. J. Murphy stated that these additional members would be Resource Members and would not be voting, but can contribute a different perspective. W. Justiz asked if we are voting only on GECC outcome revisions. J. Murphy replied that most have stated on the proposals that only the GECC outcomes were revised, but there were many additional changes made. The assessment percentages were almost all wrong, under Formative and Summative Assessment, which together should total 100%, and the GECC boxes were all checked on most submission, and should only be checked if that outcome pertains to the course. W. Justiz stated that the Assessment Committee told him that each program had to have all GECC outcomes, but he has one certificate with only one course and that is not possible. J. Murphy stated there is no rule that all five GECC outcomes are required. K. Li added those would be learning outcomes for the certificate. J. Murphy will speak with L. Koslowski. K. Li concurred with J. Murphy that all five GECC outcomes are not required. S. Campos concurred with K. Li and J. Murphy.

**Adjournment:** J. Murphy adjourned the meeting at 3:45 p.m.

**Submitted by:** J. Murphy, Chairperson

**Susan Misasi Maratto:** Recording Secretary
